Part I: Rhythm

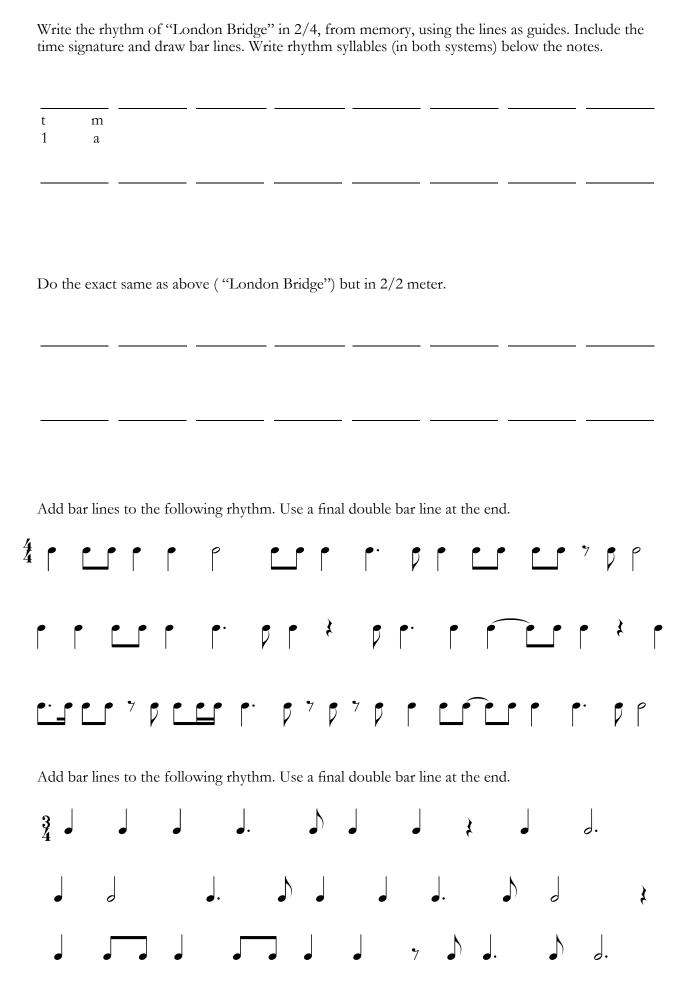

Write the rhythm of "Dinah" in 2/4, from memory, using the lines as guides (one line per beat). Include the time signature and draw bar lines. Write rhythm syllables (both takadimi and 1-e -&-a) below the notes. You can abbreviate takadimi syllables to their initial consonants. Stem all notes **up**.

Add bar lines to the following rhythm. Then rewrite the rhythm below, using the beatlines as guides. In your re-write, beam the notes appropriately and include the time signature and bar lines. Add rhythm syllables below. Stem all notes **down**.

Re-write the rhythm of the exercise just above in the space below, converting it to 2/2 meter. Do not change the relative values.

| Translate from scale-degree numb | oers to solfège | ·. | | | |
| î 2 3 4 5 4 3 | | î 3 5 6 5 3 2 | | | |
| â â â â î â î | | 3 2 1 3 5 6 5 | | | |

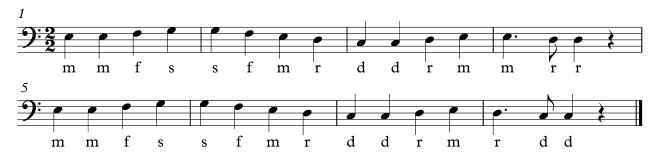

Write out the following major hexachords, in **both treble and bass** clef, **ascending and descending**. Include the **solfège syllables** and **scale-degree numbers**. **Mark the half-steps** and determine the appropriate accidentals. Remember to write the accidentals neatly and the appropriate size: spanning a little under 3 lines or 3 spaces vertically. Pay attention to the **duration value** asked for, to get practice writing different values. Mind the **stem direction** as well: stem up for notes above the middle line, stem down for notes on the middle line and below.

Here is the melody to "Twinkle Twinkle" in the key of C. d d 1 \mathbf{f} f m m d f f S r r m m d d S \mathbf{S} S First, write out the major hexachord (ascending) for **F major**. Write the solfège syllables beneath the notes. Then write out "Twinkle Twinkle" below in F major. Write the solfège syllables first, then the appropriate notes. Include a treble clef and time signature at the beginning. Make sure to use accidentals as needed. Notate neatly and pay attention to stem direction. Now write out the major hexachord (ascending) for **E major**. Write the solfège syllables beneath the notes. Then write out "Twinkle Twinkle" below in F major. Write the solfège syllables first, then the appropriate notes. Include a treble clef and time signature at the beginning. Make sure to use accidentals as needed.

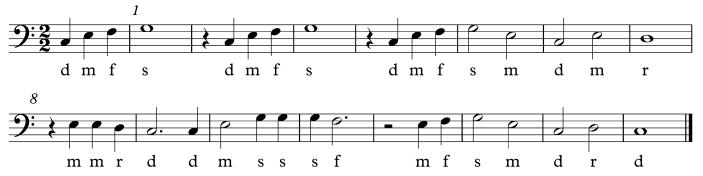

Here is the famous "Ode to Joy" theme from Beethoven's Ninth Symphony, in the key of **C**, in **bass clef**. Note that it begins on **3** (**mi**).

Rewrite it in the key of **Eb major**. (You may want to write out the Eb major hexachord separately on a piece of scrap paper.) Write the solfège syllables out first. (What note will the tune start on?) Remember to include the opening bass clef and time signature, and mind the stem directions.

Now rewrite the "Ode to Joy" in the key of **D major** and in <u>treble</u> clef. (Write the solfège syllables out first. (What note will the tune start on?) Remember to include the opening bass clef and time signature, and mind the accidentals and stem directions.

Here is "The Saints" in C major (also in <u>bass</u> clef). The tune begins with an anacrusis (upbeat measure) that is almost but not quite complete. By convention, the measure numbering begins after the upbeat measure, with the first complete measure.

| notate it in | The Saints" in the key of A major in <u>treble</u> clef, using the same procedure. This time, real 2/4 meter . (It will have the same number of bars as before, but now the beat value is a te, and all the values scale down accordingly.) |
